UPGRADED TO 4X8GB TOTAL 32GB on my Desktop ram is only 6 months old

Corsair Vengeance 16GB (4 x 4GB) Dual/Quad Channel DDR3 Memory Kit from Corsair is a set of four modules each of 4GB capacity with a total of 16GB memory. It is equipped with aluminum heat spreaders that help to dissipate heat. Vengeance memory module kit is designed specifically for the current CPUs. This kit helps to maximize the system memory capacity with overclocked performance. The Vengeance modules run at 1.5 volts for maximum compatibility with all Intel Core i3, i5, and i7 processors, as well as the 2nd generation Intel processor family.

1.5V DIMM ensures compatibility with 2nd generation (Sandy Bridge) Intel Core processor family

Includes XMP performance profile

Designed to work on all dual/quad channel Intel platforms

Kit Configuration 4 x 4 GB

Speed 1600 MHz (1600)
Memory PC3
