Address:

Mediapolis

Price:

180.00 \$

Eight, "new," galvanized, hog feeders. ~22x40x47 inches. As seen in one picture these feeders are in the original wooden crates from Klein manufacturing that went out of business years ago. They are new but have been in a barn and were covered with debris and vermin excrement. Thus the few rust spots on the feeder and the rusted agitator bar. The one we took out of the crate and put together had all the parts present and we even had left over bolts. \$180 each put together or \$125 if you want to clean it up and put it together.
