Schiller Piano Company, Oregon Illinois

Piano serial # 63271 (Previously determined to have been built in USA in 1921.)

Still in working order, lead tubes and leather billows with a few repairs done prior to our purchase in 1982. Missing the piece of trim for the piano role sliding doors.

177 piano rolls (if sold separate for \$5 each - that would more than cover the cost of piano!)

Great for party entertaining at home! Great exercise too!
