Address:

Inman, KS

Price:

225.00 \$

I've had this wood stove since it was new and never had any trouble with it. We replaced it three (3) years ago with a pellet stove and just don't need it anymore. It needs a paint job and a new door seal but other than that it should still be a great stove. I have some extra fire brick to go with it too. PM me with any questions you have.
