Price:

2000.00 \$

Decadent beauty! This handcrafted 3-piece solid walnut hardwood entertainment center from American Furniture Galleries was made to impress. The pictures do NOT do it justice! This gorgeous furniture can set together (as pictured) or the display cases can be separated from the entertainment center.

The centerpiece has shelving with two large drawers, built in TV pedestal and power strip. Main doors open and retract to give a clear view of the television. Two bottom drawers are hidden by outer doors. The back of the entertainment center has access holes for cords. The centerpiece has a rounded carved wooden top piece that is detachable.

Each display case has two shelves with built-in lights and shelving below. The top door hinges are touch activated to turn on inner lights. Cases come with additional trim pieces

The centerpiece is 93.5 inches tall (without add-on 83 inches). The 3 pieces combined have a width of 109 inches.

The centerpiece alone is 60 inches wide by 32 inches deep. In TV pedestal is 4 inches wide.
