Address:

Lubbock

Price:

50.00 \$

Gently used Dynex , 32 inch flatscreen, works perfectly, remote included. The TV was bought in 2011 and was used for a few years before new ones were bought. No problems with the TV. Power button, volume, channel, etc. are all on the side of the TV. The image showing the TV on says "no signal" because I only had the power cord in, nothing else.
