Address: 213 N. Third Ave., Minneapolis

Price: 50.00 \$

China Hutch with four drawers, two doors on the bottom, two doors on the top, and two open shelves. I've had it for nine years, and it wasn't being used for it's use. It's wood, it has scratches, and one crack. The top is separate from the bottom, and there is no screws, but it has made it through several grandchildren climbing on it. The width on the bottom is 54" (Widest part), the depth is 20" on the bottom, the top section is 45" tall, the bottom is 33" tall, and together they are approximately 78" tall or 6'5"; the whole cabinet is approximate measurements. I want \$50. If you want to look at the cabinet and give me your phone I'll number, get back to vou as soon as possible.
