Price: **120.00 \$**

Power Acoustic CD DVD MP3 Bluetooth USB. Works Excellent just cant afford to put it in my new car. Has Bluetooth so you can use your phone while driving. Can also watch movies on it. Has a 7in screen and a remote. had it in my ford fusion so if you have one of those that is what the wire harness is for. I had a usb with movies on it and it was great for road trips. price is firm! any questions or for pics call or text anytime 4027o8482eight. Also has SD card slot and aux/headphone hookup. Already has the rca converter for the subs and has other rca's for back up camera and other amps. also have some older mtX subs if interested
