Address: Hillsboro, Hillsboro

Price: 200.00 \$

Crate 65-watt (one 12-inch speaker) solid-state guitar combo amp in like-new condition. This is a modeling amp (meaning it has built-in effects, such as distortion, phaser, chorus, etc.). It has retro styling, with a gold speaker grill, leather covering, and leather handle.

The amp features independent solo, rhythm, and clean channels with 3-band EQ. It includes a three-way footswitch for switching between lead channel, rhythm channel, clean channel, and effect presets. Effect settings can be saved once dialed-in and then recalled with the push of a button at any time.

Built-in effects are as follows:

-One "MULTI" effects knob to select chorus, flanger, phaser, vibrato, octave down, touch-wah, or reverse-wah effects, including LO/MID/HI option for some of the above.

-One "DELAY" knob to select single, echo, echo FX, or tape style delay, including LO/MID/HI
