I'm selling my old Bose Portable SoundDock. It fits the older iPod/iPhones (4S or older), but it does have a spot to plug your newer iPod/iPhone in with an aux cable. It sounds and works great, but doesn't include the remote. It does include the adapter. \$185 OBO. Serious Inquiries only. POOS. Cash only, no negotiating in person, and I'd prefer to meet by my house in St. Ann. If interested, please reply to this post or private message me. Thanks a lot!
