Price:

Free

Sectional sofa with chaise lounge at one end to form an "L" shaped sofa. Has beige and dark chocolate brown large pillows that serve as sofa cushions that you lean back on. The cushions that you sit on are dark chocolate brown plush cushions. The back, arms of sofa and bottom are covered with the faux leather material. Since it was not made with all genuine leather the leather-type material on the top of the arms of the sofa has peeled off. This part can be hidden with decorative throws or blankets. This is all that is wrong with this sofa. It is in good condition and built well. I also have a round swivel oversized chair that goes with sofa and has the same problem with the leather type material peeling off that can be hidden with the large pillows and blankets/throws. Sofa is \$250 and if you want both pieces its \$300. Cash only
