This is a Insinkerator Badger 5xp 3/4 HP garbage disposal that was put in by a builder. It works like new but was replaced with a different model and larger size. It was installed for 4 months. We have a new power cord for this model included in the price. A great upgrade to standard 1/4 hp that most people have installed. Must be picked up in South Brunswick County NC as shipping costs are prohibitive. Write: dengrove@hotmail.com
