Beautiful Heritage Cherry Sunburst Les Paul with Plus AAA flamed carved maple top, solid mahogany body with glued mahogany neck, rosewood fretboard, antique ivory colored upper body and fretboard binding. Grover tuning machines, with hardshell case and strap. One tiny dent on upper edge of guitar, a few very small scratches and scuff marks, but overall in great condition. No significant fret wear. This guitar Plays like a dream and is almost indistinguishable from my Gibson Les Paul Standard in sound and feel. This is a professional grade Les Paul at a great price. Local cash sale only, please. I live in Carpinteria and can't drive so you will have to come to my apartment if you are interested in seeing and/or buying the guitar.
