Three-piece super durable bedroom set. A long dresser with full mirror that spans the width of the dresser, a tall chest if drawers and a nightstand. No defects in functionality. It could use a coat of your favorite paint color; right now I would consider it a distressed off-white. This could be one of those super cool vintage/upcycled sets! I think it's probably worth more than I'm asking, but I really need it gone by the end of January. Located in Theresa. Call or text
