Host a high school foreign exchange student and open your heart to the world. You'll change their life and they'll change yours. You'll make worldwide friends that will become family for a lifetime. It's a great way to teach your family, friends and community about another culture while teaching a foreign student about the American way of life. Our children love the new "sisters" and "brothers" they've gained around the world and love introducing them to everyone! Contact me for more information.

To see a few students' experiences, go to www.exchangestories.com
