I really need this gone! It's just too big for my living room.

First to pick up gets it. No holds.

This is a heavy, solid, beautiful piece of furniture by Hooker Furniture Co., of Virginia.

It measures 67" wide by 57" tall by 24.25" deep. It has a pull-out tray with slots for CDs or DVDs, two deep drawers, four additional shelves for components, and two openings under the TV shelf for your DVD player and/or game boxes. Has electric outlet attached to the inside so you plug everything into it and just one plug goes into the wall.

Accommodates a 32" TV. I paid over \$1,000 for it many years ago at the old Silverado Furniture Co. on Lincoln Ave. in Napa and I still have the original papers that came with it. Legs rotate for leveling. Excellent craftsmanship. Will take a furniture dolly and a couple of strong people to move it.
