Single trundle bed, wooden construction, with 5 drawers built in. Also has a computer desk built in under the bed, plus a trundle bed for sleepovers! In good shape. One slat is broken in trundle bed but will not affect comfort of a mattress.

It is still assembled and will need to be broken down when picked up. We will help carry it out. (I'm just afraid I'll strip the screws). I also have the computer disk for step by step set up.
