Hi, looking to move on from consoles as i have a PC now.

I have a slim PS3, 500 GB with 1 Controller it is a scuff controller (meaning it has paddles on the back that function as an EXTRA X and O, however 1 paddle broke off, but they are cheap to replace through the scuff website, i just dont need it anymore so i havent bothered this was a 100\$ controller new)

It will also come with the power cord, I will be keeping my HDMI cord so that will be on you.

## GAMES INCLUDED

I do not have the cases for these games, they were apparently lost in my moving..

Call of Duty 4 Modern Warfare

Call of Duty World at War
