EXCELLENT LIKE NEW.

If you are looking for a safe and easy exercise machine, then the Weslo Inversion Flex System would be a good option for you. It will help you increase your blood flow and also decompress your spine. The exercise equipment comes with a cushioned frame which provides great back support and comfort. You can also adjust the height of the unit easily that allow different users to customize the exercise tool to satisfy their individual needs. The handlebars ensure that you get proper support and balance when you workout. The Weslo inversion table will position you in the right way to relax your body and work to get rid of your stress. It comes with foam ankle lock and safety chain to ensure your protection while you exercise. You can invert the Weslo gym system fully or tilt and lock it in the angle that you wish to work out. It can be easily folded, allowing easy and practical storage.

Weslo Inversion Flex System:

Inversion bench

Adjustable height

Ankle lock down

Adjustable center of gravity
