This Deep Eddy Neon has raised lettering that is lighted from behind. It is very bright so it will definitely light up any area of the house, garage or man cave you put it in. It measures 18"high x 32" wide and is in Excellent Condition. I have several other neons so be sure to look at my other listings. Maybe you want more than one light. Make me an offer. Call or text 785-224-1265. Don't hesitate as these lights won't last long!
