Price:

100.00 \$

Here is an old school Sony stereo console. I bought this new in 1993. The bass speakers are dry and the cones are falling apart - speakers will need replaced or repaired. It has surround sound. It has a 5 CD turntable. It has a rare 5 Cassette turntable as well. The door doesn't automatically open on the Cassette player anymore. I think it's belt driven, so the belt may need replaced. It was a pretty high end unit in its day. 636-485-9970
