Bought both at the same time in April. I absolutely love my setup, but I need funds for a move. There is absolutely nothing wrong with the Chromebook or printer. I'll throw in HP Supreme Standard paper and a brand new, still in box, \$30 dollar black ink cartridge. (Still has a bit of black and color ink still left. I'll send as many pictures as you'd like for serious inquiries. In (indor, clean and kept temperature controlled environment).
