Address:

**Elk Falls**

Price:

**2500.00 \$**

It is 1996 Blair -16ft gooseneck-single axle. New tires put on just prior to Dean's death, which has been a year now but used very little since he died. New gooseneck extension and jack put on right before his death. Floor with normal wear/tear, no breaks in fiberglass top. I had the escape door and back door latches rebuilt/and or welded/repaired. Some rust but still just a good bones trailer. I have lowered my price to \$2500 but "might" entertain a decent offer.
