Price: **0.80** \$

Right now I have a killer deal on a few amazing fields!

Let me tell you about them first, these are recycled fields but lucky YOU! They have no INFILL which would be the black rubber that makes the fields hot and heavy! Right now these rolls weigh roughly 350 pounds which is not bad for artificial grass. Also keep in mind this turf is recycled but nothing is wrong with it. They had to pull it up because the base was done wrong on the field they laid on. A one hundred thousand dollar mistake that you can profit from! This turf will work great in any indoor or outdoor field! Looking for Gym turf? This turf will do the job! Need a paintball field covered because you are tired of dirt. This will do the trick. Need your backyard covered because you are tired of cutting it, this will let you relax. Need it delivered we can do that for you!

Call or text about the price. This turf is under \$1.00 per sq. ft. it's not even .90 cents per sq. ft.! That's how under \$1.00 it is, and that is a killer deal and it's just for you! 951-816-5847 its a football field! Getting a ton of field I can work with my price just call or text. This is going to go fast!
