Address: **Webster Groves**
Price: **500.00 \$**

I have a 2016 17" Lenovo gaming laptop.
Processor: Intel Core i7-6700HQ CPU - 2.6GHz
16GB RAM
Windows 64bit
NVIDIA GTX 960 graphics
256 GB Solid state drive
space for a secondary storage drive, matte finish screen, backlit keyboard

This is a powerful computer that can multitask like a pro, and has about a 4 hour battery life. The sound quality is great and it has a super fast startup. I just did a clean Windows install so it is good to go. I also have a new 1TB internal HDD that I could throw in for an extra \$40. Minor cosmetic damage (scratches on lid) but other than that it is clean. I am selling because I had to upgrade for architecture school. Feel free to make me a reasonable offer!
