Solid wood, dovetail construction. This quality piece would be a great focal point. I have the missing knob or you can install your own hardware. The top is made from solid planks, that is evidence of the age of the piece and is not a crack. Fresh chalk paint finish. The mirror is not attached but can be easily accomplished. Dresser dimensions: 46" I X 20.5"deep X 35"tall. Mirror 33" tall X 37" wide. Will sell separately
