I've upgraded and hate to throw out a perfectly good mattress.

It's infused with aloe to help make it cooler for sleeping.

It's in good shape, came with a 20-yr warranty, and has a zip-off washable cover. (I also have a waterproof fitted cover for it as a "just in case" extra step.)

It would be great for a kid's room or guest space.

Free to a good home ... if you can come pick it up. (Great deal!)
