We provide best laminated tube. ABL or PBL tube can make vivid decoration for complex colors specially for eye cream packing tube. The welding line of plastic laminated tube is very nice and flat. And it is of high productivity, superior service and prompt delivery. The plastic cosmetic tubes we provide are also made of ABL or PBL, which play an important role in the colors specially for face, body, flowers, animals, etc. Our empty lotion tubes have refillable plastic soft tube, and the tube and cap are both available. They can be used in cosmetics, food, pharmaceutical, household & industrial product packaging. Besides, they have superior product quality and service, competitive price, strong production capacity and quick lead time. With professional experience and high ability, we provide compatible aluminum laminated tube. It has different closures and stable screen printing. We use 100% fresh plastic material and reject recycled material. It is of 5ml - 480ml changeable complete size and 2-5 layers PE, ABL, PBL tube. 5-layer tube has good gas barrier performance, and it can effectively prevent the infiltration of hydrogen and peculiar smell. And 2-layer tube has good water and alcohol barrier performance.
