https://county-marketplace.com/household/other/vintage-antique-kundo-electromagnetic-clock_ottumwa_250052

Address: **Ottumwa**
Price: **45.00 \$**

This is a Kundo electromagnetic clock, oval shaped and made of brass. It's not a quartz clock, it uses an electromagnet to drive the pendulum. It was originally made to use a large dry cell battery but has been converted to use 2 - AA batteries.

It's in good running condition.

Measures Approx.

9 1/2" W

9 1/4" T

5 1/2" D

You can see this clock in operation here:

<https://www.dropshots.com/navigator/date/2019-03-15/20:15:57>

This clock is one of 3 clocks that I have listed on County Buy, Sell, Trade, one of the photos shows all three together. They are \$45.00 each or \$100.00 for all three.

Thanks
