We purchased a condo in December which included the appliances, the refrigerator is too big for the space it's in, so we've purchased a counter depth one that will be delivered on 3/4/20, and this one will be in the garage so you can see it. There is absolutely nothing wrong with it, originally purchased on 11/4/16, and still has the balance of a 5 year transferable warranty.. currently selling at Lowe's for \$1804.00.
