Absolutely fabulous Victorian masterpiece, a turn of the century French Limoges or Bavarian Porcelain Lamp.

The superbly hand-painted roses with foliage are artist signed. I can't decipher the signature so any help with it would be appreciated.

I didn't take the lamp apart to check for markings but I would bet the bottom of the porcelain is marked. Of course, it may not be marked either. Just saying.

Anyway, the lamp has it's original wire hoop and two-piece wire shade frame. Will require recovering. But are difficult to find with the originals with this old of a lamp.

I'm guessing this lamp is circa 1890 to 1910s. Please use your own judgement.

The electrical parts look good and the lamp works but should be checked out for safety's sake.

The lamp has a base approx 10" in diameter and a top of 12" in diameter.
