30.00 \$

This is one of multiple paintings/photos that I acquired from a house sale. I am no expert on paintings and photos such as the types of oils and papers used to create their images. I will do my best to take photos of the paintings/photos and locate any possible imperfections or damages and post them on the listings. The paintings/photos will be sold as is. The painting/photo description is listed below.

Description: Moon

Type: Painting

Dimensions: 36 in. x 24 in.

Due to the coronavirus situation and the City of Lansing, County of Leavenworth, and the State of Kansas implementing stay-at-home procedures, I am willing to discuss with potential buyers about future arrangements for sales. However, I will only carryout the agreed upon sale meeting after the city, county, or state issues an all-clear notice for normal activities to resume. Thank you for your understanding.
