Massey Ferguson vintage pull-behind lawn and garden trailer in excellent original shape. Has single axle , dump style body, Ferguson red color. Welded steel construction for hauling heavy loads. Comparable models go for over \$450 at Tractor Supply these days:

Spotting on paint in the photos is from dew on the paint. It is faded and dusty but even. Can be used with lawn tractors or ATV.

Nice shape but could use at least one tire. The trailer has a release latch to allow easy dumping or spreading. Tail gate in back secured with bolts but you could use clips for easier opening. Feel free to make an offer.

I also have a nice pull behind spreader and plow listed.
