Price:

160.00 \$

Never used 1950's HUGE 24" Vintage Chalkware Pig Coin Bank Large Heavy Folk-art Piggy Bank. Condition is New. Listed is a HUGE Vintage "Folk-art/Farmer" PIG Piggy Bank! A rather rare piece, This crazy character stands 24" tall, and is made of a thick Chalkware material. He is really quite awesome, adorably dressed in his attire. His bright paints are sprayed onto the surfaces, and blend together nicely! The design and details throughout lend so much to his character and charm! His condition is really Excellent considering his material make-up and age (70 yrs old) there are no cracks, or big chips, however, some minor scuffs do appear but nothing that would affect it and minor periodic areas of paint loss. I could of easily touched him up, but thought better to keep him in the original condition!

He stands up quite securely, and is fairly heavy, weighing a little over 14 lbs. He is 24" tall, and approx. 13" x 16" taken at his widest points. A wonderful piece, great for the pig collector, and heck, so large he could be considered a part of the family! If you have any questions please ask and Thank you for your interest, good luck, and have a great day!
