Address:

Hurley, Moss Point

Price:

550.00 \$

I have a Line 6 Spider V MKII 120 for sale. It's less than a year old, purchased 8/11/19, and still under warranty. I recently purchased a Helix and no longer need the amp. It also comes with a Line 6 FBV Shortboard MKII pedal board and a Line 6 G10 Relay wireless guitar transmitter. The receiver for the wireless device is built into the amp. Just plug the G10 Relay into the 1/4" guitar jack on the amp and it will charge. I also have a USB charging cord for the G10.

Everything is in perfect working order. The amp has some small wear on the front edges that can be seen in the pictures.

I am located in Hurley MS but I'm regularly in Mobile and Baldwin county.
