6 string Goldtone banjo. Great sounding banjo with 6 strings. The wider neck gives the instrument a little more sustain than a normal 4 or 5 string banjo. I bought this used for \$800 about 8 years ago. It had a split in the neck that was professionally repaired (see photo). I've scratched up the front cover a bit, but that's just aesthetic. The banjo sounds and feels good. Electronics are in good condition too. I'm just selling this because I have too many instruments at home. Comes with a hard carrying case.
