Mahogany Reproduction Hutch Piece

We purchased this from " Golden Oldies" in Huntington. It is a reproduction and the wood is Mahogany or some type of similar wood. It has a mirror on top, beautiful glass goers and a full width drawer at the bottom.

The unit 40.5" wide x 74.25 high x 15.5" deep. The mirrored section is 22.25" high, the glass door and drawer section is 45.75" high. The glass doors are 37" high.

It come from a very clean smoke free home. The unit is on the second floor you would have to come with two people to be able to take is down.

Thanks
