I bought this ukulele this summer, but I know I'm never going to make it enough of a priority to start practicing. This instrument is great for any age. I even still have the original packing it came in! It comes with a tuner, a carrying case, and a manual. I only used it once to tune it. I am asking for no lower than \$45, I paid \$50 a few months ago (including shipping). Serious inquiries Thank only. you!
