Address: 16980 Krchak Ln, Robertsdale, Robertsdale

Price: 300.00 \$

Excellent guitar for live gigs and for recording.

Pickups

Neck: Seymour Duncan '59 Model Humbucker

Bridge: Seymour Duncan JB Model (Jeff Beck) Humbucker

Big, fat classic Gibson Les Paul kind of sound without all the weight of a Les Paul and the cool look of an Explorer Body.

Single Volume and Single Tone that work on both pickups.

I built this guitar around 20 years ago using an Explorer Body that was made by ESP before Gibson made them stop copying the body. The Neck is a slim Carvin maple neck with a Rosewood fingerboard.

It has locking tuning heads (I believe Schaller, but I don't remember).

Stays in tune. Sounds great. Plays great. Action. Pickups. It and beside of yourself.
