Address: **Asheville**  
Price: **200.00 \$**

This stainless steel steam cabinet sits on top of two of the burners on your gas or electric stove. Side to side works best, so make sure you have a stove where it can hang over the edges on each side of the stove if the surface is less than 40" wide; in other words make sure the counter tops are not taller than the surface of the burners!

Heat water in a compartment at the bottom of the steamer, bring to a boil to produce steam which will fix the dyes on the fabric. The silk is rolled up with unprinted newsprint, on the provided metal rod, and suspended above the simmering water. The lid is flat on the outside but there's a lip around the inside of the lid that channels the condensating water away from the silk.

Steaming time depends on the type of dyes and the amount of fabric on the roll. Generally steam time will range from 20 minutes to a couple of hours depending on the size of the roll. Holds up to 19 yards of 36" wide fabric or approximately 12 yards of 45" or 55" wide fabric. For the wider silks you will need to fold the silk to fit onto the rod making sure to place unprinted newsprint between the folds. The steamer measures 39.5" long x 6" wide x 8.5" deep and weighs 26 lbs.

Brand new price is \$175. My price is \$200.00.
