Address: **Muskego**
Price: **60.00 \$**

Used. 3 years old.

Water Storage with 20 year shelf life.

Uses Aquamira 2 ounce bottles (or similar) used in storage preservation, not included.

About \$17 per set of bottles online at Aquamira. New water storage barrels sell a good bit higher. Water stores sealed for about 20 years. The pumps included are new never been used and are Siphon Drum/Pail Pumps. Less complicated than it sounds. Photo is a little rough. The barrels are like new condition.

These barrels originally came with a supply of food storage and we decided not to use the barrels after we had tried them out.
