I purchased nice stainless steel wine chiller this recently, but never opened it, as I do not need one now. Two features that I especially liked were: 1) dual zones, so you can keep your white and red wines at their different recommended storing temperatures. 2) two doors, so the swing ration of the door is very small.

I can help with delivery, for a fee, if you are not able to pick this up. Online prices for this Wine Chiller are in the range of \$425 to \$520. My phone # is 928 273-3223.
