Free

Beginning in August 2021, Bluegrass and Northern Kentucky Workforce Boards will join the Cumberlands and South Central regions in a collaborative effort to offer Web Development training to individuals throughout 48 counties. The course is a 16-week training course that can be taken in a hybrid or virtual model, depending on where the participant resides. If you know of anyone who might be interested in upskilling themselves in a growing industry, please have them apply online at www.commonwealthcoders.com.
