This is a great RV type vehicle for camping and traveling. It is a 1994 Chevy G30 van (1-ton chassis), with dual rear wheels, a 6.5 diesel engine, a Carpenter made small school bus type body, and has only 86,838.6 original miles. Doors: besides the driver door on left-hand side, on the right-hand side it has a 30in passenger door (with steps to ground) and a 44in side-loading door, and in the rear it has a 35in loading door. (The 44in side loading door really comes in handy when camping, traveling,etc.) This vehicles has great windows that allow for spectacular viewing when traveling and camped. It also has a towing hitch in the rear. The vehicle is 19ft from front to rear and has an interior clearance of 77in from floor to ceiling. This vehicle never had passenger seats in it, because it was originally for "wheel chair" transportation. Call 727-507-8386 or email waynricha@yahoo.com
