This 1986 Kyosho Icarus is being offered on behalf of a friend whose spouse owned it before his recent death. It is untested so is being sold "as is" and probably needs oil and new batteries since it was manufactured in Japan in 1985. (We are not sure when it was assembled). This package includes the assembled racer, the radio, the battery charger and the manual. There are no extra parts nor decals beyond those that have already been affixed.
