Do you desire to have furniture that wows you and makes you happy? Are you looking for something that's unique and a work of art?

Take a journey with me...

To a charming French marketplace: Fresh produce in baskets layer the cobblestone pathways; beautiful birds fly overhead chirping merrily through the crowds; the smell of warm, fresh-baked croissants and baguettes fills the air; varieties of cheeses beg you to sample every one; and flowers of every hue are sprinkled across the cityscape providing a touch of natural beauty, grace, and elegance to the scene.

This was my inspiration for this piece.

On the outside, the doors showcase beautiful scrolls (that lend a nod to the feeling of the traditional scrollwork of France - Florentine style) supported by columns that are yet chic and elegant. The legs, and the finished gold leaf, create the piece it a high-end piece.
