This is the "Cub 2.0 Sleeper" crib in walnut. Mattress is included. The crib is solid wood, sturdy, and attractive. The condition is good, but you might wish to repaint. Although the crib height is adjustable, two out of four connector pieces are missing and the crib is currently at the lowest setting. To adjust the height of the mattress you'll have to buy the missing hardware or just put something underneath the mattress. An L-wrench is also included for the bolts. You'll want to bring a truck for pickup since I don't have one.
