Address:

South East, Loveland

Price:

17200.00 \$

This 21' beauty has served us for the summer of 2021! We are saddened to part with it but we bought a home that needs major work so that will be the focus for the next couple of years. No camping for us. I installed a nice rack above the propane tank for a generator. I will throw in the voltage regulator usually \$230 and the weight distribution/sway bars with specific hitch about \$375. I'll also throw in the cover we use for the winter months.
