Address:

Sarasota

Price:

850.00 \$

Extremely hard-to-come-by vintage jazz guitar from early 2000s, reissue copy of Stromberg's incredible 1940s models. Maple body, laminated spruce top, mahogany neck, mother of pearl fretboard inlays. No case, but even without a case it retails new between \$1200-1400.

Body is too big for me and I haven't used it for a live show or recording in years, so I'm parting with it for the right player/collector. Message me with any questions... we are located near exit 210 off I-75 and can meet up so you can check out this gorgeous guitar!
