5-Piece wooden bedroom set. This set includes one large dresser, one smaller dresser/nightstand, one desk, one hutch, and a chair. The nightstand has a glass top with a rubber mat to keep it from sliding. The drawers are in good condition and have a lot of space for storage. All pieces have gold trim and brass handles. The wood and chair upholstery is light beige.

This set was a boy's furniture for many years and has some dings, scrapes, and watermarks (see the pictures). It is perfect for a child, a smaller adult, or someone with limited space.

We are moving and a lot of stuff needs to go! See the "More ads by this user" link in the sidebar.
